to redeem one of the links above simply click on it on the device you have monopoly go installed on when you click on the link in your browser you ll be taken to a new webpage and asked if you want to open it in monopoly go this is a really fun game i do enjoy the overall mechanics of it aside from a few things i ve noticed and i would recommend honestly good social media games have giveaways every now and again when events drop that would be awesome instead of a one time deal for each app i think players should get some rolls on the events link i found this appealing with other games i ve played also the friends list what s up with it trying to find my social media friends and it s not finding them or adding them when i send the link even if they are playing is grieving very frustrating to try and figure it out when it impossible another i ve noticed is if you have people on your friends list i think they should be avoided to bank roll them if they are part of the team they should be excluded from heists etc which brings me to the next i ve noticed and that s if they take money the correct amount taken i ve sat side by side and more money was taken from me than was told to the player taking the money not fair not for player 1 or player 2 honestly think if these little suggestion could be incorporated it would be flawless still though 5 stars for me vg247 is owned by gamer network limited an ign entertainment company and subsidiary of
